Dear Sir:

Florida Power Corporation (FPC) is hereby withdrawing License Amendment Request (LAR) #271 Revised Improved Technical Specification (ITS) 3.7.18, for Two Inoperable Control Complex Chillers (TAC No. MB6189).” This LAR was submitted as a contingency for two inoperable Control Complex Chillers during the refurbishment of the ‘A’ train Control Complex Chiller which was placed out of service on September 30, 2002, for a complete rebuild of the unit.

The refurbishment of the ‘A’ train Control Complex Chiller was satisfactorily completed on October 17, 2002, and therefore, the LAR is not needed. FPC has discussed this withdrawal notice with the NRC staff.

This letter makes no new regulatory commitments. Additionally, commitments made in References 1 and 2 are no longer applicable.
